L'Aquila

Direttore: Roberto Formenti

Year of Foundation: 1932

Origins and development: Born as a Vocational School, it has always kept this feature, along with other activities that over the years the Salesians have made to meet the emerging needs of youth. The building structure of the Center, renovated in the 70s and inaugurated in 1977, has been provided with equipment to carry out training activities in the most advanced sectors such as computer science, mechanical engineering and automation processes.

Sectors and activities today: it promotes Initial, Continuing and Higher Vocational Training activities. It mainly operates in Automotive, Electrical and Mechanical sector.
