Origins and development: The Salesian Institute "Pretto" of Genoa – Quarto hosts as part of its activities a Vocational Training Centre. The Centre was born in 1960 on the initiative of the spouses Pretto who wanted to entrust the Salesians with the management of the activities that had, as a primary purpose, the technical and vocational education of young people at the school of Don Bosco. The VTC was established under the Article 117 of the Italian Constitution that entrusts the regions with the vocational training jurisdiction. The VTC, therefore, is connected to the regional public authority regarding programs and funding and responds to the request of having free schools open to the working classes, as intended at the time of the foundation.

Sectors and activities today: it promotes Initial, Continuing and Higher Vocational Training activities

It mainly operates in Automotive and Electric sector.
