International Projects

CNOS-FAP Federation, in coherence with its training proposal, is responsible for the design of **European and International projects and pilot initiatives** aimed at achieving one or more operational objectives in line with its **Internationalisation Strategy**.

The International Project Office of the National Headquarters acts in partnership with European and International institutional bodies and actors, coordinating with CNOS-FAP Regional Associations and Vocational Training Centres, in order to **improve the skills** of its staff, **foster the personal and professional development** of its students, increase the **quality, impact and relevance** of VET and with the aim of **building solid European and extra-European partnerships**.
