Vasto

Direttore: Gioacchino Passafari

Year of foundation: 1966

Origins and Development: The salesian home in Vasto was opened by virtues of Sen. Giuseppe Spataro and through the distinguished work of benefactor Carlo Della Penna, who emigrated to America but always remained attached to his homeland. The Vocational Training activities, required by the recent and planned industrial settlements, of SIV, Marelli, Flovetro and many other small and medium companies began in 1968 with courses for mechanics, electricians and electromechanics. The immediate employment of the young people being trained suggested the expansion of activities and establishments; at the same time led to a continuous upgrading and adaptation of equipment.

Sectors and activities today: Promotes activities of initial vocational training and continuing vocational training.

Operating mainly in the Electrical, Mechanical sectors.
