Cembre SpA

Cembre S.p.A. and the CNOS-FAP Federation on July 9, 2019 in Brescia signed an agreement ^[1] by which they commit themselves, with their respective roles, to research and experiment various ways of collaboration, connection and interaction, in order to improve the technical-professional, technological and operational knowledge and skills of teachers, trainers and students of the Salesian works belonging to the electrical sector (VET, ITI, IPSIA, ITS).

Also to identify activities that combine the educational purposes of the education and training system with the needs of the productive world, with a view to facilitating the transition and the relationship between the moment of training and work.

The collaboration will also be aimed at providing adequate support to companies and professionals through continuing education actions in the areas and fields that each VET, in agreement with Cembre S.p.A., intend to develop.
