

UdA Lingua inglese 03

Premessa

Il tema del cibo riscontra un buon interesse da parte dei ragazzi e permette sia di svolgere attività individuali e di gruppo stimolanti sia di avvicinare i ragazzi alla cultura del Paese straniero.

Abbiamo scelto di utilizzare la lingua inglese anche nella progettazione delle singole lezioni. Riteniamo che questo offra il vantaggio di farci entrare già nel *language context* che vogliamo creare in aula.

Le dicitura TT e ST indicano rispettivamente i tempi dell'insegnante e degli studenti nelle varie fasi della lezione.

A ogni lezione è stato assegnato un titolo che rimanda immediatamente ai contenuti grammaticali o lessicali della stessa. Nella prima lezione, dopo aver presentato il tema e gli obiettivi dell' UdA, l'insegnante spiega agli alunni i criteri di valutazione che saranno adottati. La valutazione finale sarà il risultato di due componenti:

- una verifica strutturata individuale, con un punteggio fino a 30 punti, e
- un compito autentico di gruppo, con una rubrica valutativa declinata in quattro dimensioni e con un punteggio complessivo di 70 punti.

La prima e la seconda lezione sono dedicate rispettivamente al lessico e alla grammatica e si svolgono in un contesto prevalentemente frontale, per fornire agli alunni le conoscenze necessarie per affrontare sia la prova strutturata sia il compito autentico. Alla fine della seconda lezione è prevista una prova strutturata a stimolo chiuso e risposta chiusa per verificare l'acquisizione delle conoscenze (gli esiti della prova saranno poi debitamente restituiti agli studenti).

La terza lezione è stata dedicata alle funzioni linguistiche utilizzando la strategia del cooperative learning per la realizzazione di un menu.

L'ultima lezione è interamente dedicata allo svolgimento del compito autentico da parte degli allievi.

In tutte queste lezioni vengono utilizzate tecniche di roleplay, brainstorming e gaming guess per coinvolgere attivamente i ragazzi.

Le tecnologie a cui abbiamo fatto ricorso sono: **Microsoft Office Power Point e Prezi**, che sono strumenti che permettono di visualizzare i contenuti in modo rapido ed essenziale; **Youtube** (<http://www.youtube.com>) per la ricerca di video da inserire nelle lezioni in modo da renderle più reali; la **videoripresa** gestita direttamente dai ragazzi.
